- Bieler Internship Award, 1500\$ (Summer 2016/2018)

Bachelor of Arts and Science: Major in Biology (completed 2 years)

2013- 2015

Concordia University - Montreal, Quebec

Skills

Technical: FTIR, SEM microscope, bomb calorimeter, proximate and elemental analysis, gas chromatography, open flash point, four ball wear test and particle count test.

Computer: Windows, MS Office (Word, PowerPoint, Excel), Internet Databases, MATLAB and AutoCAD, JMP, Simulink and CONSOL programming

Languages: English and French (fluent)

Career Related Experience

Laboratory Research Assistant

Fall 2019

Sentinel Canada - Montreal, Quebec

- Perform quality control and quality assurance tests on a variety of chemical fluids and lubricants used in the industrial and military industry

Research Assistant in Food Engineering

Summer 2018

McGill University - Montreal, Quebec

- Assisted three PhD students over the course of four months:
- Analyzed lobster waste as an alternative fuel source using laboratory techniques
- Experimented with a hybrid-drying concept for apple drying
- Facilitated with the initial stages of a fluidized flatbed microwave dryer for onions

Plastic Waste Management Intern

Summer 2017

Sustainable Barbados Recycling Center - St. Thomas, Barbados

- Surveyed and separated plastic waste into five different (distinct) categories
- Recorded and quantified data
- Presented weekly updates on research project to stakeholders and businessmen
- Performed physical and chemical tests at McGill University on various types of plastic containers used in Barbados' fast food industry in Montreal
- Projected the shipping cost of plastic waste off the island of Barbados.
- Educated public and staff on the effects of plastic waste on the environment (specifically terrestrial and marine ecosystems).

- Submitted recommendations and research proposals for future industry management. Estimated the amount of plastic waste that would be processed by the facility in the following 6 months
- Reported back to McGill University the findings

Food Waste Intern

Summer 2016

Biowallonie - Namur, Belgium

- Surveyed food waste in the regional hotel and restaurant industry
- Recorded and quantified data for the Ministry of Environment in Belgium
- Reported back to McGill University the findings

Additional Work Experience
